

KPA2 KeyPad Access Control

iTech

What is a KPA2 KeyPad Access?

Transmon's KeyPad Access (or KPA for short) is designed to prevent unauthorised use of forklift and mobile plant equipment. The programmable Access Control keypad is simple and affective; it will only activate the vehicle starter/ignition once a valid operator code is entered.

What's included:

- Keypad and harness
- Relay module, connection harness
- Installation and programming instructions

Features:

- Over 50 Driver Codes
- 12, 24, 48, 80Vdc options
- Robust design, easy to install
- Surface mounted – no black box
- Easy to use push button for start and stop
- Can be used with or without vehicle key switch
- Hardwearing, waterproof stainless-steel construction
- Compatible with ICE and Battery powered forklifts and vehicles

Benefits to you:

- Increased site safety
- Can be fitted to any vehicle
- Easy to install and programme
- Can discourage against vehicle theft
- Restricts vehicle usage to authorised drivers
